

Cytogenetics Services Pricelist

Services	Academic
Human cytogenetic services	
Cell harvesting (suspension cell culture)	94,50 \$
Cell harvesting (adherent cell culture)	143,00 \$
Standard G-banding karyotyping	
Spreading and metaphase preparation, quality and mitotic index evaluation	79,00 \$
G-banding preparation	60,00 \$
Search and capture of metaphases	125,00 \$
Analysis of 20 metaphases and karyotyping	210,00 \$
Verification and validation of the karyotypes	42,00 \$
Preparation and print of karyotypes	42,00 \$
Final report	35,00 \$
Basic price	593,00 \$
Complex karyotype (G-banding)	1 275,00 \$
Chromosome breakage studies	
Preparation of different alkylating agents	170,00 \$
Spreading and metaphase preparation, quality and mitotic index evaluation	79,00 \$
Standard Giemsa preparation	70,00 \$
Search and capture of metaphases	125,00 \$
Chromosome breakage count of 50 cells (less than 5 breaks/cell)	168,00 \$
Verification and validation of the analysis	42,00 \$
Preparation and print of images	42,00 \$
Final report	35,00 \$
Basic price	731,00 \$
Complex	2 065,00 \$

Cytogenetics Services Pricelist

Services	Academic
Giemsa stain and chromosome count	
Spreading and metaphase preparation, quality and mitotic index evaluation	79,00 \$
G-banding preparation	70,00 \$
Search and capture of metaphases	70,00 \$
Chromosome counting	70,00 \$
Verification and validation of the analysis	21,00 \$
Preparation and print of images	21,00 \$
Final report	35,00 \$
Basic price	366,00 \$
FISH (commercial probe)	
Spreading and metaphase preparation, quality and mitotic index evaluation	79,00 \$
Commercial probe (price)	220,00 \$
FISH technique (hybridization, washing, detection)	165,00 \$
Count, analysis, image capture	42,00 \$
Verification and validation of the analysis	21,00 \$
Preparation and print of FISH images	21,00 \$
Final report	35,00 \$
Basic price	583,00 \$
Karyotype analysis by a cytogeneticist	
Rate per hour	250,00 \$
